Google Views in June: 2.69k

Calls from Google: 156

The Lethality Assessment Protocol, or LAP, is a tool that helps police officers and other crisis responders to put victims in contact with us almost immediately after a domestic violence incident. Officers or responders use the lethality assessment to determine how much danger the victim is in in their current situation. If they conclude that the risk of lethality is high, the responder will call us and an advocate will speak with the victim, inform them of our services, and set up a time to call back for a more in-depth conversation.

June LAP Data:

total calls: 2
High Danger: 2
Note High Danger: 0
New to Program: 0

Volunteer Updates

Opportunities available:

Donation Pick-up Volunteer:

We need one or two volunteers to help out with our biweekly (twice a week) donation pickups. This task will take about 2 hours per week; 1 hour per pickup.

Childcare volunteers:

They will help with our children's summer camp program in July. This program will be one week long and will be about 4 hours a day during the daytime.

Crisis Line Volunteer:

For people who might want to get more involved, volunteers can become trained on our crisis line. Training will be held once a month on the second Thursday of every month at approximately 2pm. Once a volunteer is trained, they can assist the front desk advocate in answering phones and other advocate duties.

Donations

- Thin towels
- wash clothes/face clothes
- disinfectant
- disposable gloves
- 91% rubbing alcohol
